EXECUTIVE SUMMARY

INTRODUCTION

The development, implementation and monitoring of a Service Delivery and Budget Implementation Plan (SDBIP) is required by the Municipal Finance Management Act (MFMA). In terms of Circular 13 of National Treasury, “the SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and budget are fully aligned with each other, as required by the MFMA.”

As the budget gives effect to the strategic priorities of the municipality it is important to supplement the budget and the IDP with a management and implementation plan. The SDBIP serves as the commitment by the Municipality, which includes the administration, council and community, whereby the intended objectives and projected achievements are expressed in order to ensure that desired outcomes over the long term are achieved and these are implemented by the administration over the next twelve months.

The SDBIP provides the basis for measuring performance in service delivery against quarterly targets and implementing the budget based on monthly projections. Circular 13 further suggests that “the SDBIP provides the vital link between the Mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the Mayor, Councillors, Municipal Manager, Senior Managers and the Community.”

The purpose of the SDBIP is to monitor the execution of the budget, performance of senior management and achievement of the strategic objectives set by Council. It enables the Municipal Manager to monitor the performance of Senior Managers, the Mayor to monitor the performance of the municipal manager, and for the community to monitor the performance of the municipality. In the interests of good governance and better accountability, the SDBIP should therefore determine and be aligned with the performance agreements of the Municipal Manager and Senior Managers.

The development, implementation and monitoring of a Service Delivery and Budget Implementation Plan (SDBIP) is required by the Municipal Finance Management Act (MFMA). In terms of Circular 13 of National Treasury, “the SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and budget are fully aligned with each other, as required by the MFMA.”

LEGISLATION

According to the Municipal Finance Act (MFMA) the definition of a SDBIP is: 'service delivery and budget implementation plan' means a detailed plan approved by the Mayor of a municipality in terms of section 53 (1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget, and which must indicate-

- *Projections for each month of-*
 - ❖ *Revenue to be collected, by source; and*
 - ❖ *Operational and capital expenditure, by vote;*
- *Service delivery targets and performance indicators for each quarter*

Section 53 of the MFMA stipulates that the Mayor should approve the SDBIP within 28 days after the approval of the budget. The Mayor must also ensure that the revenue and expenditure projections for each month and the service delivery targets and performance indicators as set out in the SDBIP are made public within 14 days after their approval.

The following National Treasury prescriptions as minimum requirements that must form part of the SDBIP are applicable to the Greater Kokstad Municipality:

- *Monthly projections of revenue to be collected by source*
- *Monthly projections of expenditure (operating and capital) and revenue for each vote*
- *Quarterly projections of service delivery targets and performance indicators for each vote*

Section 1 of the MFMA defines a "vote" as:

- *One of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and*
- *Which specifies the total amount that is appropriated for the purposes of the department or functional area concerned*

METHODOLOGY AND CONTENT

National Treasury directives are clear on the contents and methodology to derive at the SDBIP. As a first step, the IDP objectives need to be quantified and related into key performance indicators. The budget is aligned to the objectives, projects and milestones to enable the SDBIP to serve as monitoring tool for service delivery. What gets measured gets done, therefore it should be noted, that in order to improve on certain processes and co-operation within the municipality, process indicators have been developed for measurement purposes during 2017/18 financial year.

The Greater Kokstad Local Municipality has incorporated the following relevant components into their SDBIP, but has used the initiative to devise it as follows:

- ⇒ *Monthly projections of Revenue by Source.*
- ⇒ *Monthly projections Expenditure by (Department) Vote.*
- ⇒ *Overview of alignment IDP.*
- ⇒ *Quarterly projections of service delivery targets and performance indicators for each (Department) Vote.*
- ⇒ *Capital Works Plan over three years.*

In the development of Greater Kokstad Municipality's SDBIP cognisance was taken of the IDP Priorities, Objectives and Strategies ensuring progress towards the achievement thereof. The SDBIP of the Greater Kokstad Municipality is aligned to the Key Performance Areas (KPA's) as prescribed by Regulations 805 of 2006 and the IDP Guidelines by COGTA for purposes of alignment to the Performance Agreements of the Municipal Manager and Managers directly accountable to the Municipal Manager.

The Institutional Indicators will form part of the Performance Agreements and Plans of the Municipal Manager and Managers directly accountable to the Municipal Manager. Indicators are assigned quarterly targets and responsibilities to monitor performance.

The SDBIP serves as a management, implementation and monitoring tool that will assist the Mayor, Councillors, Municipal Manager and Senior Managers in delivering services to the community. The SDBIP is described as a layered plan. The top layer deals with consolidated service delivery targets and time frames as indicated on this plan.

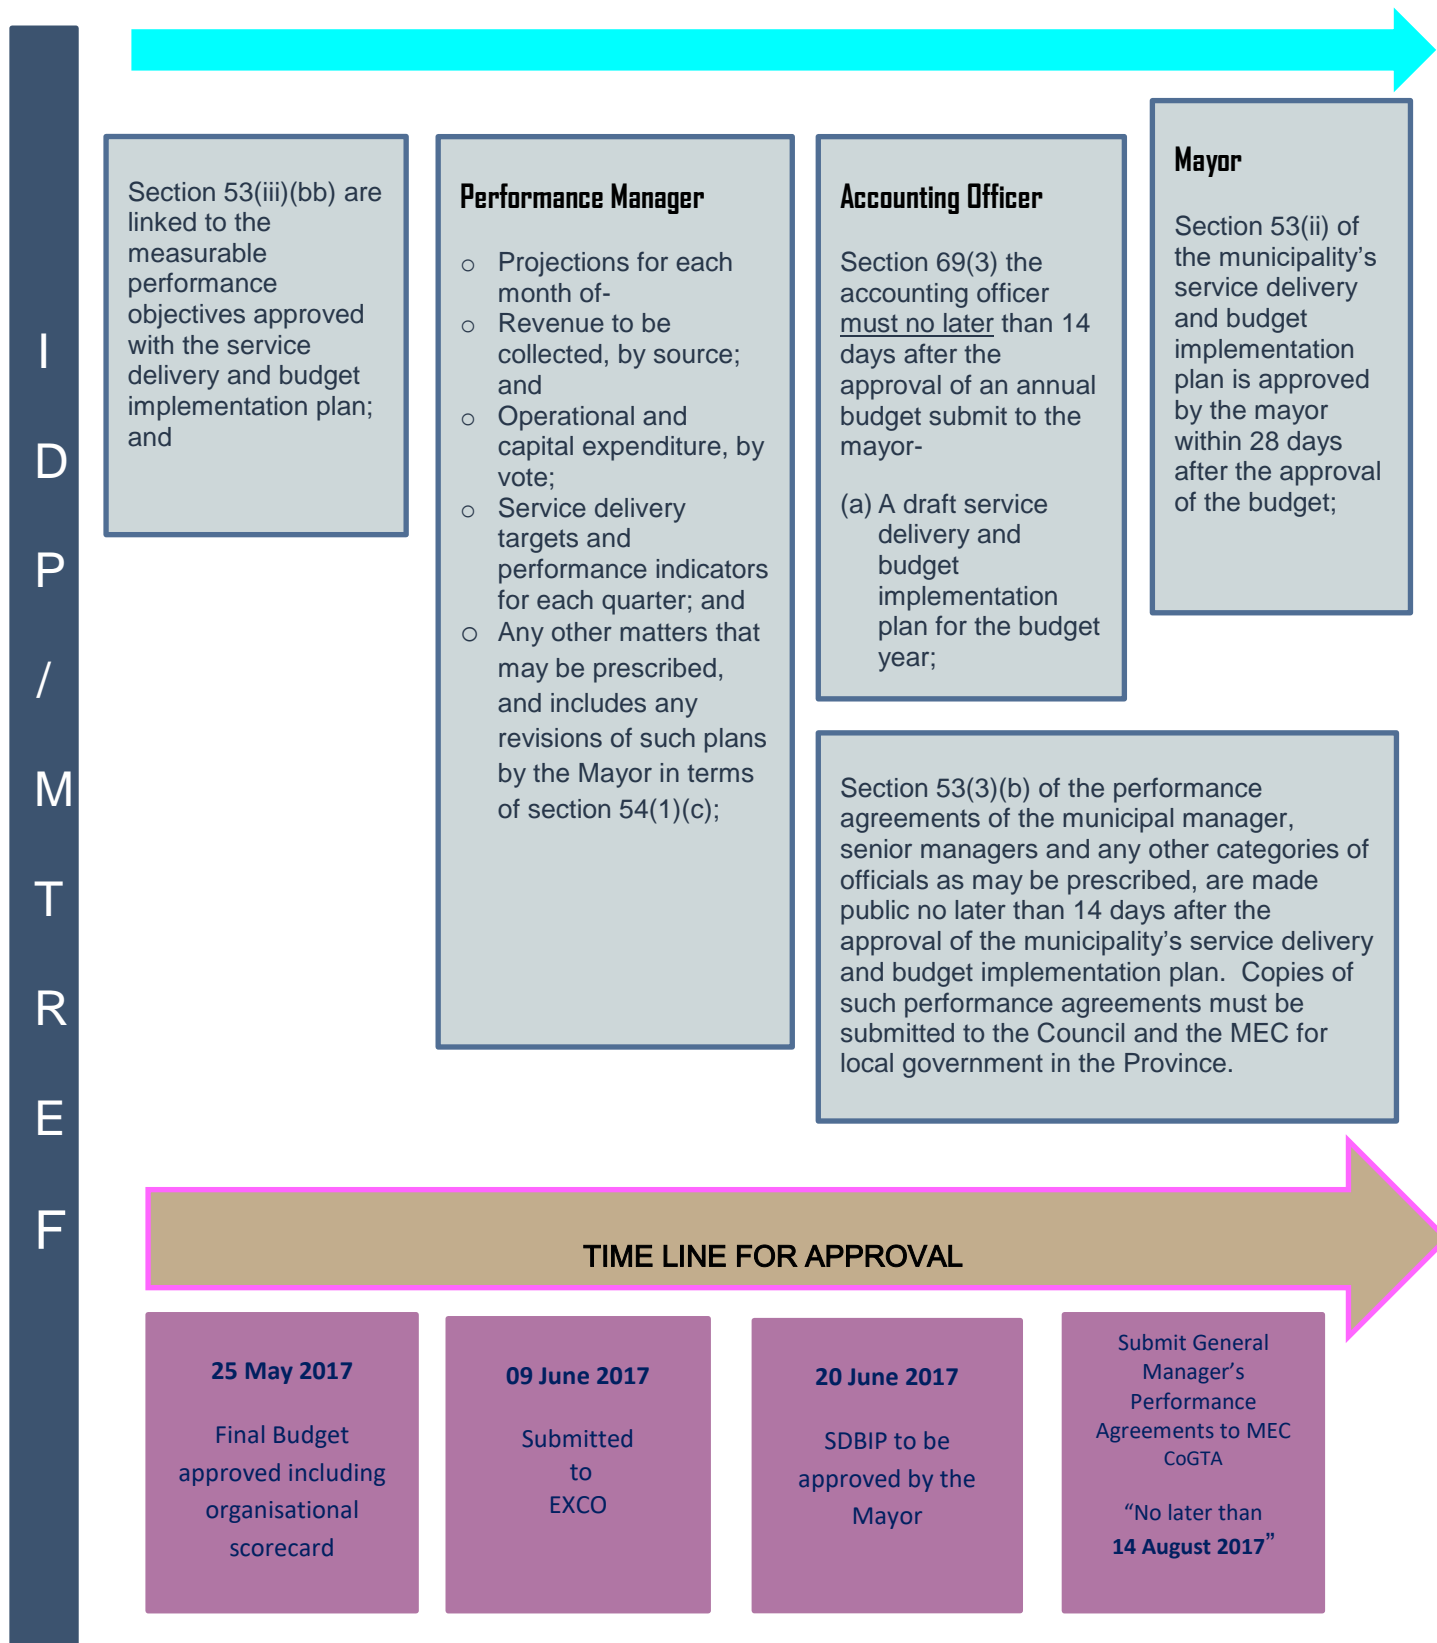

Top Management is held accountable for the implementation of the consolidated projects and Key Performance Indicators. In the Lower level SDBIP, Divisional Heads will be held accountable for the implementation of the projects for that department, although all Top Managers are on average held accountable for implementing their departments' projects within time and budget.

From the consolidated information, Senior Management is expected to develop the next level of detail by breaking up outputs into smaller outputs and then linking and assigning responsibility to middle-level and junior managers and will be contained in the Lower SDBIP, which is not required to be approved by Council neither to be published. For 2017/18 financial year, the lower SDBIP will contain the responsibilities of the Divisional Managers. This lower SDBIP is a management tool for Top Management and need not be made public and is a separate document for each internal department.

OVERVIEW OF ALIGNMENT TO IDP

VISION

The formulation of Greater Kokstad Municipal Vision is based on the objective of the Local Government as enshrined on the Constitution of the Republic of South Africa, Act 108 of 1986: Section 152 which prescribes the following as the principal mandates of the Local Government.

- ⇒ To promote democratic and local government;
- ⇒ To ensure the provision of services to communities in an sustainable manner;
- ⇒ To promote social and economic development;
- ⇒ To promote a safe and healthy environment; and,
- ⇒ To encourage the involvement of communities and community organizations in the matter of local government.

The municipal long-term vision is:

“A people-centred City of economic possibilities”

MISSION

The mission statement of Greater Kokstad Municipality is:

- ⇒ Providing quality and sustainable services to the entire community with diligence and compassion
- ⇒ Rendering good and transparent corporate governance to promote economic prosperity

VALUES

In all of our work and engagements, we subscribe to the nine corporate values for Greater Kokstad Municipality which is also aligned to the Batho Pele Principles:

1. **Caring:** Showing compassion whilst delivering services to its citizens
2. **Accountability:** Taking responsibility for decisions and actions taken.
3. **Transparency and honesty:** openness and public involvement in municipal affairs.
4. **Integrity:** professionalism, a commitment to ethics, and focus on justice and fairness and accountability.

5. **Efficiency:** results orientation, cost effectiveness, superior performance, customer satisfaction.
6. **Professionalism:** executing the mandate with diligence.
7. **Fairness:** treat all those who do work with the municipality equally.
8. **Dignity:** respect for everybody.
9. **Respect:** treating all clients and partners with respect

CORE FOCUS AREAS AND DEVELOPMENT GOALS

ALIGNMENT TO NATIONAL SIX KPA'S, PROVINCIAL PGDS AND MUNICIPAL GOALS

Development goals for the GKM were developed based on the provincial goals as outlined in the PGDS and are depicted in the table below:

Alignment to National Six KPA's, Provincial PGDS and Municipal Goals

KPA	7 PGDS GOALS	MUNICIPAL GOALS
KPA 1: Municipal Transformation and Institutional Development	Human resource development	Developed and capacitated institution and improved cohesion and effectiveness
KPA2: Basic Service Delivery	Strategic Infrastructure	Provide quality, sustainable and strategic basic infrastructure services with diligence and compassion.
KPA 3: Local Economic Development (LED) & Social Development	Inclusive economic growth	Create an environment that promotes the development of the local economy; facilitate job creation and Social Cohesion.
KPA 4: Municipal Financial Viability & Management	Governance and Policy	Sound Financial Management, Systems and Sustainability
KPA 5: Good Governance & Public Participation	Governance and Policy	To render good and transparent corporate governance to promote economic prosperity and participatory local government.
KPA 6: Cross Cutting	⇒ Spatial equity ⇒ Environmental sustainability ⇒ Human and Environmental Development	Foster social compacts and enable a resilient, sustainable, quality and inclusive living environment.

GOALS OBJECTIVES AND STRATEGIES

The municipal strategic framework indicates the alignment of the national and provincial policy objectives to those of the municipality. It also further elaborates in terms of objectives and strategies for each municipal goal as per the IDP framework guide. These are separated into the five national KPA's including the sixth Provincial Key Performance Area and further alignment to the five (5) Back-to-Basics (B2B) Pillars / Key Performance Areas. The five-year implementation plan of the municipality is derived from these goals, objectives and strategies and it is further broken down into a one year organisational scorecard. The organisational scorecard is further supported by a more operational Service Delivery Implementation Plan (SDBIP).

FINANCIAL REPORTING

FINAL BUDGET ASSUMPTIONS AND ANALYSIS

One of the most important and basic priorities for any municipality is to collect all its revenue as budgeted for the failure to collect all such revenue will undermine the ability of the municipality to deliver on services. The municipality **MUST** ensure that it has instituted measures to achieve monthly revenue targets for each revenue source. The revenue projections relate to actual cash expected to be collected and should reconcile to the cash flow statement approved with the budget documentation. The reason for specifying actual revenue collected rather than accrued (billed) revenue is to ensure that expenditure does not exceed actual income.

The SDBIP information on revenue will be monitored and reported monthly by the municipal manager in terms of section 71(1)(a) and (e). For example, if there is lower than anticipated revenue and an overall cash shortage in a particular month the municipality may have to revise its spending downwards to ensure that it does not borrow more than anticipated. More importantly, such information requires the municipality to take urgent remedial steps to ensure it improves on its revenue-collection capacity if the municipality wants to maintain its levels of service delivery and expenditure.

These projections relate to cash paid and should reconcile to the cash flow statement adopted with the budget documentation. Each key GFS function is a “vote” and must have associated with it as appropriate: operating expenditure; revenue; capital expenditure; and measurable performance objectives.

Measurable performance objectives include service delivery targets and other financial and non-financial indicators. See MFMA circular No. 12 on the definition of the “vote”.

The SDBIP should show monthly projections of revenue by vote in addition to revenue by source. When reviewing budget projections against actual, it would be useful to consider revenue and expenditure by vote in order to gain a more complete picture than provided by reviewing expenditure only. The section 71(1) (c), (d) and (f) MFMA monthly report requires reporting against such monthly projections in the SDBIP.

ORGANISATIONAL SCORECARD

In an effort to reduce the amount of performance indicators at the executive level the top-level PI's have been grouped in an Institutional Scorecard. The scorecard is the primary focus of performance delivery within the municipality and forms the basis of the General Manager's performance agreements as well as their performance indicators.

The Organisational Scorecard is a synopsis of the SDBIP for the medium term 2017/2018 to 2019/2020. The scorecard has been aligned with National KPA's and the Municipal KPA (IDP strategic objectives) and The Presidency's national outcomes.

Departmental SDBIP's are for operational function and are included under the various departments and have been assigned to individuals and will form part of the performance agreements for 2017/2018 financial year.

CONCLUSION

As part of igniting excellence and taking service delivery to a higher level, the departmental performance monitoring will be done through the quarterly departmental SDBIP's which will also be cascaded down to the senior managers' performance agreements. The implementation of sound financial planning and budgeting will ensure sustainable service delivery that would result in growth for the municipality. These budgets and strategies have been developed to ensure that backlogs are addressed and that future financial problems are avoided and timeously corrected. It is also to ensure that projects are adequately funded and that future projects can be realistically planned and budgeted.

The Greater Kokstad Municipality invites all the Stakeholders, to make this Service Delivery and Budget Implementation Plan (SDBIP) a reality.
